# Foundation's Board Letter

Dear partners, collaborators, donors and volunteers, we are pleased to present the 2018 Annual Report with good news. Like every year, thanks to your collaborations and your donations, you have helped us enormously in the projects of the Nuria García Foundation.

It has been proved once again that, even in difficult times, solidarity has not diminished and allowed us to support 12 more projects, accompanying the most vulnerable children with international cooperation projects and local aid.

We have dedicated more than 61% of our resources to health programs and almost 39% to education programs. This has allowed us to reach an estimated number of 17.000 children that today have an opportunity amongst their communities.

We repeat our gratitude also on their behalf, since without your help this would not have been possible for us.

We encourage you to continue collaborating with our Foundation to achieve new successes.

THANK YOU!

## Ophthalmology programs in schools and villages

### With Gesta África in Senegal

We continue working in Senegal, focusing on eye diseases both in adults and children. Eye diseases are very common in this area and may be the origin of irreversible blindness with great socioeconomic impact. Gesta-Africa organizes medical examinations and surgery campaigns for children with a mobile surgical unit, improving the life of about 1.000 children a year.

**Contribution:**

## Cradle for reanimation unit

### With Recover Foundation in Obout, Camerún

Many newborn babies die at birth due to a lack of resources or because of precarious pregnancies, which can also be aggravated by a lack of control during the pregnancies or the debilitated state of health of the mothers. This cradle for reanimation has been a crucial addition to the center as it reaches and can save up to 160 babies per year.
