Since it was established in 2012 with the founding capital contributed by Air-Val International, the Foundation's mission has been to help the most vulnerable children and youth population as directly and effectively as possible, with the aim of improving their living conditions and their future.

We believe that this help is essential to give these thousands of children a chance, a possible future. Our work done in memory of Nuria García continues to have a profound impact on both them and their families.

Over the last 7 years we have contributed to projects for the treatment and prevention of diseases, ophthalmological campaigns, specialized maternal and young children centers, water wells to enable access to drinking water, nutrition, financing of lunch scholarships and the construction of schools, infrastructures and health centers.

Everything we do is possible thanks to the unfailing support of our Board, collaborators, partners, non-profit organizations and especially to the Air-Val team that year after year contribute in a selfless way to improve the present and future of these children.

# *Foundation's* **Board Letter**

Dear partners, collaborators, donors, and volunteers,

Like every year, you have been enormously involved in the projects of the Nuria García Foundation. We are very pleased to continue helping the most vulnerable children and contribute to improve their living conditions. During 2019 we have carried out 4 Education and Infrastructure projects and 4 Health and Nutrition projects in 8 countries, benefiting approximately 8.300 children.

We have thoroughly reviewed all the projects that we have carried out since the Foundation was created in 2012, and as Board of Trustees we have decided to focus on fewer projects of greater economic magnitude from now on. Therefore, our help will have a greater impact on populations in precarious situations and we will be able to use all our resources, giving continuity to those projects.

We hope you enjoy this Annual Report, we have carried out these projects with great enthusiasm, helping to continue guaranteeing the protection of children who are in a situation of extreme vulnerability and poverty.

This year we would like to send our best regards to those families who have suffered the loss of loved ones due to COVID-19.

We are currently carrying out several projects to help families that are in a precarious financial situation due to COVID-19. We will keep you updated.

**With our best wishes THANK YOU!**
