FOUNDATION'S BOARD LETTER

Dear collaborators, partners, donors, and volunteers,

Once again, we would like to express our heartfelt gratitude for your ongoing support of the Nuria García Foundation. It has been more than 13 years since this family initiative became a reality, and we continue to feel the same excitement and commitment as we did on the very first day. Thanks to you, we have been able to continue advancing our mission to support the most vulnerable children.

In 2024, we have launched 21 new projects, in addition to continuing the 11 projects started in 2023, benefitting over 4.700 at-risk children across Spain, Africa, Latin America, and Asia.

This year, we have promoted initiatives ranging from child nutrition and maternal-child health to psychosocial and educational support, fostering safe and hopeful environments for minors. In Spain, we collaborated with organisations such as ISTEA, Fundació Roure, Fundación Teresa Gallifa, Nexe Fundació, and the Fundación Gastronomía Social, with whom we launched the project "Paco's Tuesday", in tribute to our President and Founder.

We would like to make a very special mention of our beloved President, Francisco García, who passed away in August 2024. Francisco was much more than the founder of this Foundation: he was its driving force, its inspiration, and its guide. Through his generosity, humility, and commitment, he taught us that helping others is the true meaning of life. As he used to say: "Life is beautiful". Today, his memory accompanies and inspires us.

Alongside him, we also remember Nuria, his daughter, the very essence of this Foundation. Her kindness, her gentle gaze towards childhood, and her example continue to light our way.

From the Board of Trustees of the Nuria García Foundation, we say THANK YOU. Thank you for every donation, every solidarity purchase, every gesture of support. Without you, none of this would be possible.

PROJECTS

“Good health and good sense are two of life’s greatest blessings”
- Publilius Syrus -

EQUINE THERAPY PROGRAMME FOR CHILDREN WITH ASD

Baix Llobregat

With ISTEA Association

For the fifth consecutive year, we are collaborating with the ISTEA Association on a programme developed and endorsed by a team of volunteer psychologists specialising in Autism Spectrum Disorder (ASD). Our work involves responding to the growing demand from families with children with ASD, encouraging their awareness, participation, and development.

During the 2024–2025 school year, 1,020 equine therapy sessions are being held, incorporating play-based activities that support the children's social integration. This year, 60 children aged between 3 and 14 will benefit. Many of these families face precarious circumstances and lack the necessary resources to provide specialised care for their children.

Contribution: 7.200€ + 2nd phase 2025: 4.800€

PROVIDING FOOD FOR THE SOLIDARITY COMMISSARY

Barcelona

With Roure Foundation

Since 2022, the demand for food from families referred by Social Services and other entities has risen by 18%, without public resources being able to adequately meet it. Affected families are often single-parent households, with both parents unemployed or in extremely vulnerable situations.

Roure Foundation, based in the old town of Barcelona, provides comprehensive and personalised care to the elderly and families. For the seventh consecutive year, we are supporting this work by purchasing dairy products over six months, ensuring the continuity of the Solidarity Economato, which in 2024 benefits 394 children aged 0 to 16.

Contribution: 2.000€ + 2nd phase 2025: 2.000€

SOCIAL CARE FOR CHILDREN FROM SINGLE-MOTHER FAMILIES

Barcelona

With Teresa Gallifa Foundation

49% of single-mother families in Spain struggle to make ends meet, and this figure increases when there is more than one child. Many of these women come from backgrounds involving violence and require comprehensive support—legal, emotional, and basic necessities for their children.

For the fifth consecutive year, we are working with the Teresa Gallifa Foundation to promote the social inclusion of pregnant women and single mothers. This project meets the needs of 136 children under six in situations of extreme vulnerability by providing baby formula, cereals, baby food, nappies, hygiene products, and recommended but non-subsidised vaccines.

Contribution: 10.000€ + 2nd phase 2025: 5.000€

HEALTHY NUTRITION FOR CHILDREN WITH MULTIPLE DISABILITIES

Barcelona

With Nexe Foundation

NEXE Foundation offers professional support to families with children with multiple disabilities, enabling them to balance caregiving with personal and work projects. Multiple disabilities often come with complex feeding needs due to swallowing and digestive disorders, which can lead to malnutrition, low weight, respiratory problems, and other serious risks.

In our first collaboration with NEXE, we are funding a healthy nutrition programme tailored to the children's specific needs within the educational setting. During the 2024–2025 school year, the project benefits 90 children: 60 aged 0–6 and 30 up to 8 years old.

Contribution: 2.500€ + 2nd phase 2025: 2.500€

SCHOOL MEAL SCHOLARSHIPS: "PACO'S TUESDAYS"

Madrid

With Social Gastronomy Foundation Delegation

For the first time, we are collaborating with the Social Gastronomy Foundation Delegation in the La Concepción neighbourhood of Madrid to ensure adequate nutrition for children in vulnerable situations. For many of them, the school lunch is their main daily meal, but not all families can access full meal scholarships.

The project "Paco's Tuesdays", in honour of our dear President and Founder Francisco García, offers a space where these children can receive a healthy and balanced meal, replicating the atmosphere of a home-cooked meal. During the 2024-2025 school year, the programme serves 65 children aged 3 to 14 every Tuesday in two shifts. This initiative not only improves their nutrition but also brings peace of mind and support to their families.

Contribution: 5.070€ + 2nd phase 2025: 5.070€

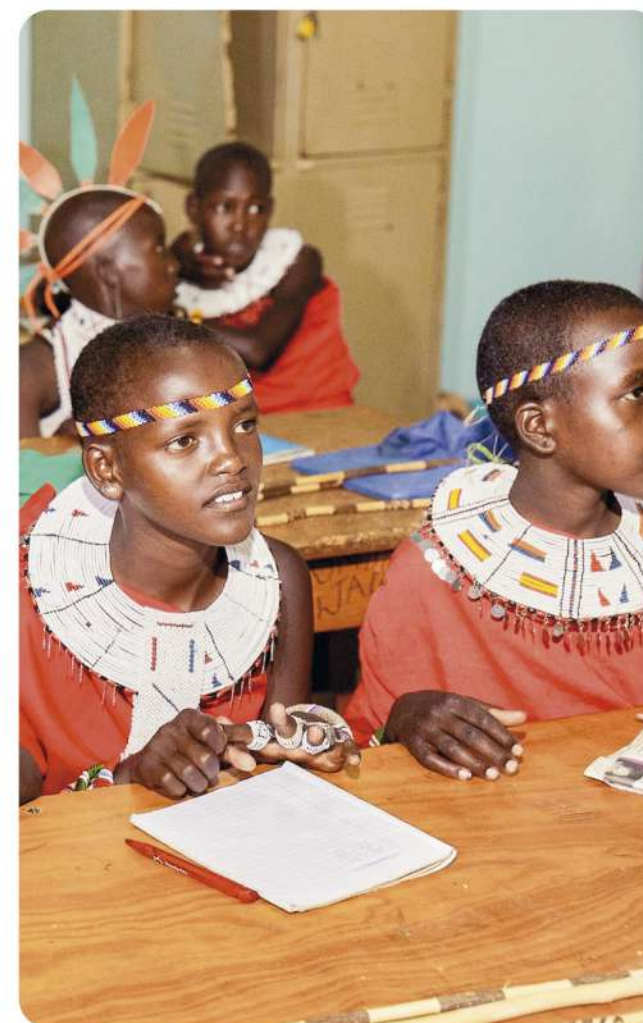

NUTRITION AND EDUCATION FOR SHEPHERD CHILDREN

Kenya

With Africa Digna Foundation

We promote a dignified life for 120 shepherd children aged 6 to 16 in Lodokume, Lwa and Lulu, where herding prevents access to education and adequate nutrition. Through the 'Lchekuti' programme, we provide two hours of daily classes and one balanced meal each day. At the end of each term, families receive their children's academic results and share a community meal.

This is our sixth collaboration with Africa Digna Foundation on this programme, which transforms the children's daily routines and enhances their present and future wellbeing through education, health, and family support.

Contribution: 8.279,50€ + 2nd phase 2025: 4.679,50€

MENSTRUAL HYGIENE PROJECT FOR SAMBURU GIRLS

Kenya

With Africa Digna Foundation

We support access to menstrual hygiene products for 800 girls from the Samburu community in Kenya. The lack of proper resources leads to school absenteeism and health issues, especially in rural areas. This programme provides comprehensive hygiene kits to improve the girls' health, self-esteem, and wellbeing, helping to reduce educational inequality.

The use of reusable products also lowers environmental impact. This initiative is part of a broader approach with Africa Digna Foundation to promote dignified and sustainable opportunities for girls and their communities.

Contribution: 6.007€

FOOD AND NUTRITION IN KIKAYA HOUSE

Uganda

With Babies Uganda Association

We support full nutrition for 32 children residing in Kikaya House orphanage in Uganda, managed by Babies Uganda. These children have experienced abandonment, orphanhood, or violence, and are cared for by seven caregivers and auxiliary staff who ensure their wellbeing.

This project guarantees their daily nutritional needs in a safe environment and fosters community development by strengthening health and education. It forms part of our active collaboration with Babies Uganda to support at-risk children.

Contribution: 9.325€ + 2nd phase 2025: 4.662,50€

SCHOOLING FOR CHILDREN WITH VISUAL DISABILITIES

Uganda

With Babies Uganda Association

We support the CEVIC Centre in Uganda, founded by a local couple to provide quality education to children with visual impairments. Most of the teachers are also blind, creating an inclusive, empathetic, and transformative environment. We fund the school expenses of 50 children for the 2024–2025 academic year, covering tuition, accommodation, food, and specialised medical care. In a country where disability

remains a taboo and access to social support is limited, this project offers a safe and dignified alternative.

We are committed to the holistic development of these children, helping them build autonomy, self-esteem, and a future full of opportunities.

Contribution: 31.200€ + 2nd phase 2025: 20.800€

CONSTRUCTION OF A CHILDREN'S CLASSROOM IN SOUSSOUTOU

Senegal

With Gune Foundation

Since 2016, we have worked with Gune Foundation to promote education in Senegal through school infrastructure. In the village of Soussoutou, many classes are still held in straw and reed huts with no basic conditions. This year, we are funding the construction of a new cement classroom, directly improving the learning environment for 229 children.

This initiative adds to the three classrooms and toilets we have already built in the area since 2020. We believe in providing a safe and lasting school where children can study in suitable conditions. We are investing in their educational present and the sustainable development of the community.

Contribution: 14.749€

AFRICA

CONSTRUCTION OF A SCHOOL IN SARÉ MAOUNDÉ

Senegal

With Gune Foundation

In the village of Saré Maoundé, children must walk between 5 and 8 kilometres to attend secondary school. In 2024, the Senegalese Ministry of Education created a new institute, but classes are currently held in provisional straw huts lacking adequate conditions. We are collaborating with Gune Foundation Guné to fund the construction of a cement school for 160 children from the village and nearby communities.

This infrastructure provides a safe and appropriate learning space, improves current educational conditions, and is a direct investment in the future of rural children and community development.

Contribution: 7.374,50€ + 2nd phase 2025: 7.374,50€

AFRICA

EDUCATIONAL IMPROVEMENTS IN GAMBASSE

Guinea-Bissau

With SILO Association

We support the education of over 800 children in Gambasse through structural and material improvements. In collaboration with the SILO Association, we fund the salaries of 33 teachers, provide school scholarships, and purchase books, notebooks, and two new computers for the audiovisual room. We also help fund the salary of the local clinic's nurse, strengthening child healthcare.

This comprehensive effort enhances educational and health infrastructure in a rural area facing major shortages. Since 2021, our partnership has been key to improving life quality and access to opportunities for children in this community.

Contribution: 18.608€ + 2nd phase 2025: 8.708€

AFRICA

PROGRAM AGAINST BABY MALNUTRITION

Guinea-Bissau

With SILO Association

In Guinea-Bissau, malnutrition severely affects babies, especially in rural areas. Seventy percent of breastfeeding mothers cannot produce enough milk due to their own undernutrition. Together with the SILO Association, we run an emergency programme that distributes powdered milk and essential food to 100 babies over nine months.

This support enhances physical development and reduces the risks linked to chronic malnutrition. The project also boosts overall family health, strengthening their ability to ensure a safer, healthier childhood. It provides a direct response to an urgent and structural need.

Contribution: 5.000€

AFRICA

FEMININE HYGIENE PROJECT

Guinea-Bissau

With SILO Association

Many teenage girls in Guinea-Bissau lack proper menstrual hygiene products, which limits their school attendance and affects their health. Together with the SILO Association, we distribute hygiene kits containing reusable pads, underwear, natural soap, and oral hygiene products.

The project benefits 400 girls aged 12 to 18 from Gambasse school and nearby communities. This initiative improves hygiene, promotes preventive health, and reduces absenteeism. Since the items are reusable, the project also supports environmental sustainability.

Contribution: 3.000€

MATERNAL AND BABY NUTRITION PROGRAMME

Mozambique

With IBO Foundation

From the Ibo Nutritional Support Centre (CANI), IBO Foundation fights malnutrition in collaboration with Mozambique's public health system. For the fourth consecutive year, we support this programme, which assists around 350 children under the age of five. It provides early diagnosis, individualised treatment, and medical follow-up, alongside educational workshops with families.

Malnutrition remains an emergency in this region, and this programme addresses both its immediate and structural causes. Our collaboration aims to improve living conditions and foster healthier, more sustainable development for children and their communities.

Contribution: 10.725€ + 2nd phase 2025: 10.725€

TREATMENT OF CONGENITAL MALFORMATIONS

Madagascar

With Feettogether Association

In Madagascar, many children are born with congenital foot deformities, such as clubfoot, which limits mobility and quality of life. We partner with the Feettogether Association in a programme using the Ponseti method: a non-invasive, effective, low-cost treatment. The goal is to treat 350 children, including previously diagnosed but untreated cases.

In a precarious healthcare context—with only one doctor per 10,000 people and long distances from health centres—this programme offers a safe and realistic solution. It also includes personalised follow-up to ensure full recovery and prevent relapses, encouraging physical and social autonomy.

Contribution: 6.208€

AFRICA

CHILD HEALTH PROGRAMME

Sierra Leona

With Sant Joan de Déu Hospital

Sierra Leone faces major health challenges, with a life expectancy of just 60 years and one of the world's highest child mortality rates. In collaboration with Sant Joan de Déu Hospital, we fund treatment for 140 children under five with common but serious illnesses such as malaria, malnutrition, and intestinal diseases.

This programme follows a medical sponsorship model: for an average of €43 per treatment, children receive consultations, medication, and specialised follow-up. Our support ensures that the most vulnerable children receive essential medical care, reducing mortality and improving their quality of life. This project strengthens the hospital's mission in one of the most challenging contexts on the continent.

Contribution: 6.000€

AFRICA

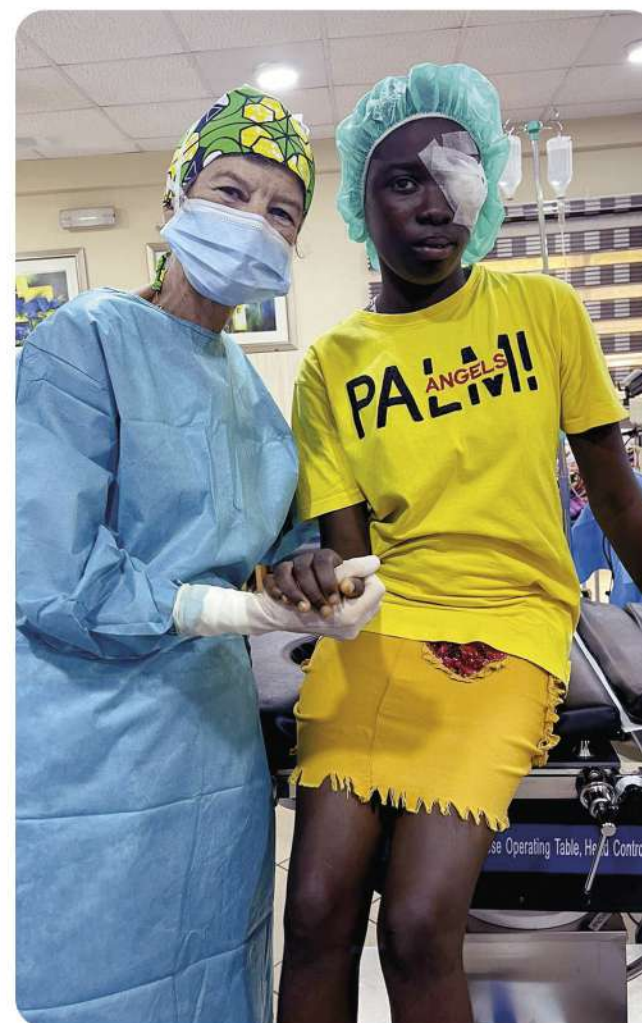

NO MORE CATARACTS FOR KIDS PROGRAMME

13 surgical expeditions in Africa and Latin America

With Elena Barraquer Foundation

Through the #NoMoreCataracts4Kids programme, we partner with Elena Barraquer Foundation to provide eye surgery for children with cataracts in 13 countries. Childhood cataracts can lead to irreversible blindness if not treated promptly. This initiative enables children aged 5 to 16 to regain their sight through free surgical interventions.

The programme includes 125 surgeries, delivery of adapted sunglasses, and eye exams to detect other vision issues. Early intervention not only restores vision but also promotes social inclusion and academic development. This project demonstrates how eye health can radically transform a child's future and that of their environment.

Contribution: 10.017€

LATIN AMERICA

IMPROVING HEALTH AND NUTRITION IN FOSTER HOMES

Peru

With Amantaní Association

Amantaní Association has been caring for children in situations of family neglect in Cusco for 27 years. It manages four residential homes where children receive comprehensive care: nutrition, education, emotional support, and medical attention.

In our sixth collaboration, we ensure healthcare for over 50 children in these homes. We fund home paediatric visits, specialist consultations, hospitalisations,

medications, oxygen, lab tests, eye care, glasses, and dental treatment. We also cover the cost of healthy, tailored food. In a context with very limited state resources, this support ensures a healthier and more dignified childhood. We are committed to their recovery, wellbeing, and holistic development, offering a strong support network in a safe and nurturing environment.

Contribution: 13.848€ + 2nd phase 2025: 6.940€

LATIN AMERICA

RELOCATION OF VULNERABLE CHILDREN

Honduras

With Nuestros Pequeños Hermanos Foundation

This is our eighth collaboration with Nuestros Pequeños Hermanos (NPH), supporting the transition home Casa Mi Esperanza (CME) in Olancho, Honduras. This home temporarily shelters children at risk from environments of violence, abandonment, or extreme poverty. The goal is to protect their wellbeing and support them through the relocation process to permanent homes or foster families.

We fund their nutrition and comprehensive medical care, supporting 130 children. CME provides an immediate solution to uphold fundamental rights while long-term alternatives are arranged. We help create a safe, loving, and structured environment crucial for emotional stability and personal recovery.

Contribution: 10.000€

LATIN AMERICA

HEALTH AND NUTRITION AT "CASA SAN ANDRÉS"

Guatemala

With Nuestros Pequeños Hermanos Foundation

"Casa San Andrés" in Guatemala houses children who have experienced violence or abandonment, offering them safety, care, education, and health services. It is part of the NPH network of homes. In addition to resident children, its school is open to 253 local children, promoting violence prevention and social inclusion.

We support the health and nutrition programme that ensures a balanced diet and access to medical care, including mental health. This initiative strengthens the children's ability to face the effects of trauma and supports healthier physical, emotional, and educational development.

Contribution: 5.000€ + 2nd phase 2025: 5.000€

ASIA

MATERNAL AND CHILD HEALTH AND NUTRITION

India

With Colores de Calcuta Foundation

In Pilkhana, Kolkata, many families live in extreme conditions: shanties without electricity, water, or ventilation, in a highly vulnerable environment. In our fourth collaboration with Colores de Calcuta Foundation, we support a maternal and child health programme for mothers and children at risk.

Two mobile units visit 17 marginal neighbourhoods, conducting 4 to 5 visits per area monthly. Families receive medical follow-up, referrals to Talapark Clinic, preventive workshops, and direct care for young children. This project ensures equitable access to healthcare, improves nutrition, and strengthens child protection in a persistently excluded context.

Contribution: 7.248€ + 2nd phase 2025: 9.600€

EMPOWERING INDIGENOUS GIRLS

Nepal

With Bahadur Social Project Association

In Gorkha, Nepal, girls from indigenous communities such as the Chepang face high illiteracy, school dropout, and lack of access to basic hygiene products. In collaboration with Bahadur Social Project Association, we distribute menstrual and school hygiene kits to 240 girls under 16 in four schools.

The kits also include training in health, first aid, and preventive education. This intervention helps keep girls in school and improves their living conditions. It builds self-esteem, fosters community participation, and promotes personal development, acting as a catalyst for change in an environment that restricts their opportunities.

Contribution: 6.773€ + 2nd phase 2024: 3.384€

OUR IMPACT

Eau my BB

Created with love, Eau my BB is a range of charitable products designed for the little ones. Since its launch in 2017, a percentage of sales has been allocated to child health and nutrition projects for the most vulnerable, in collaboration with the Nuria García Foundation.

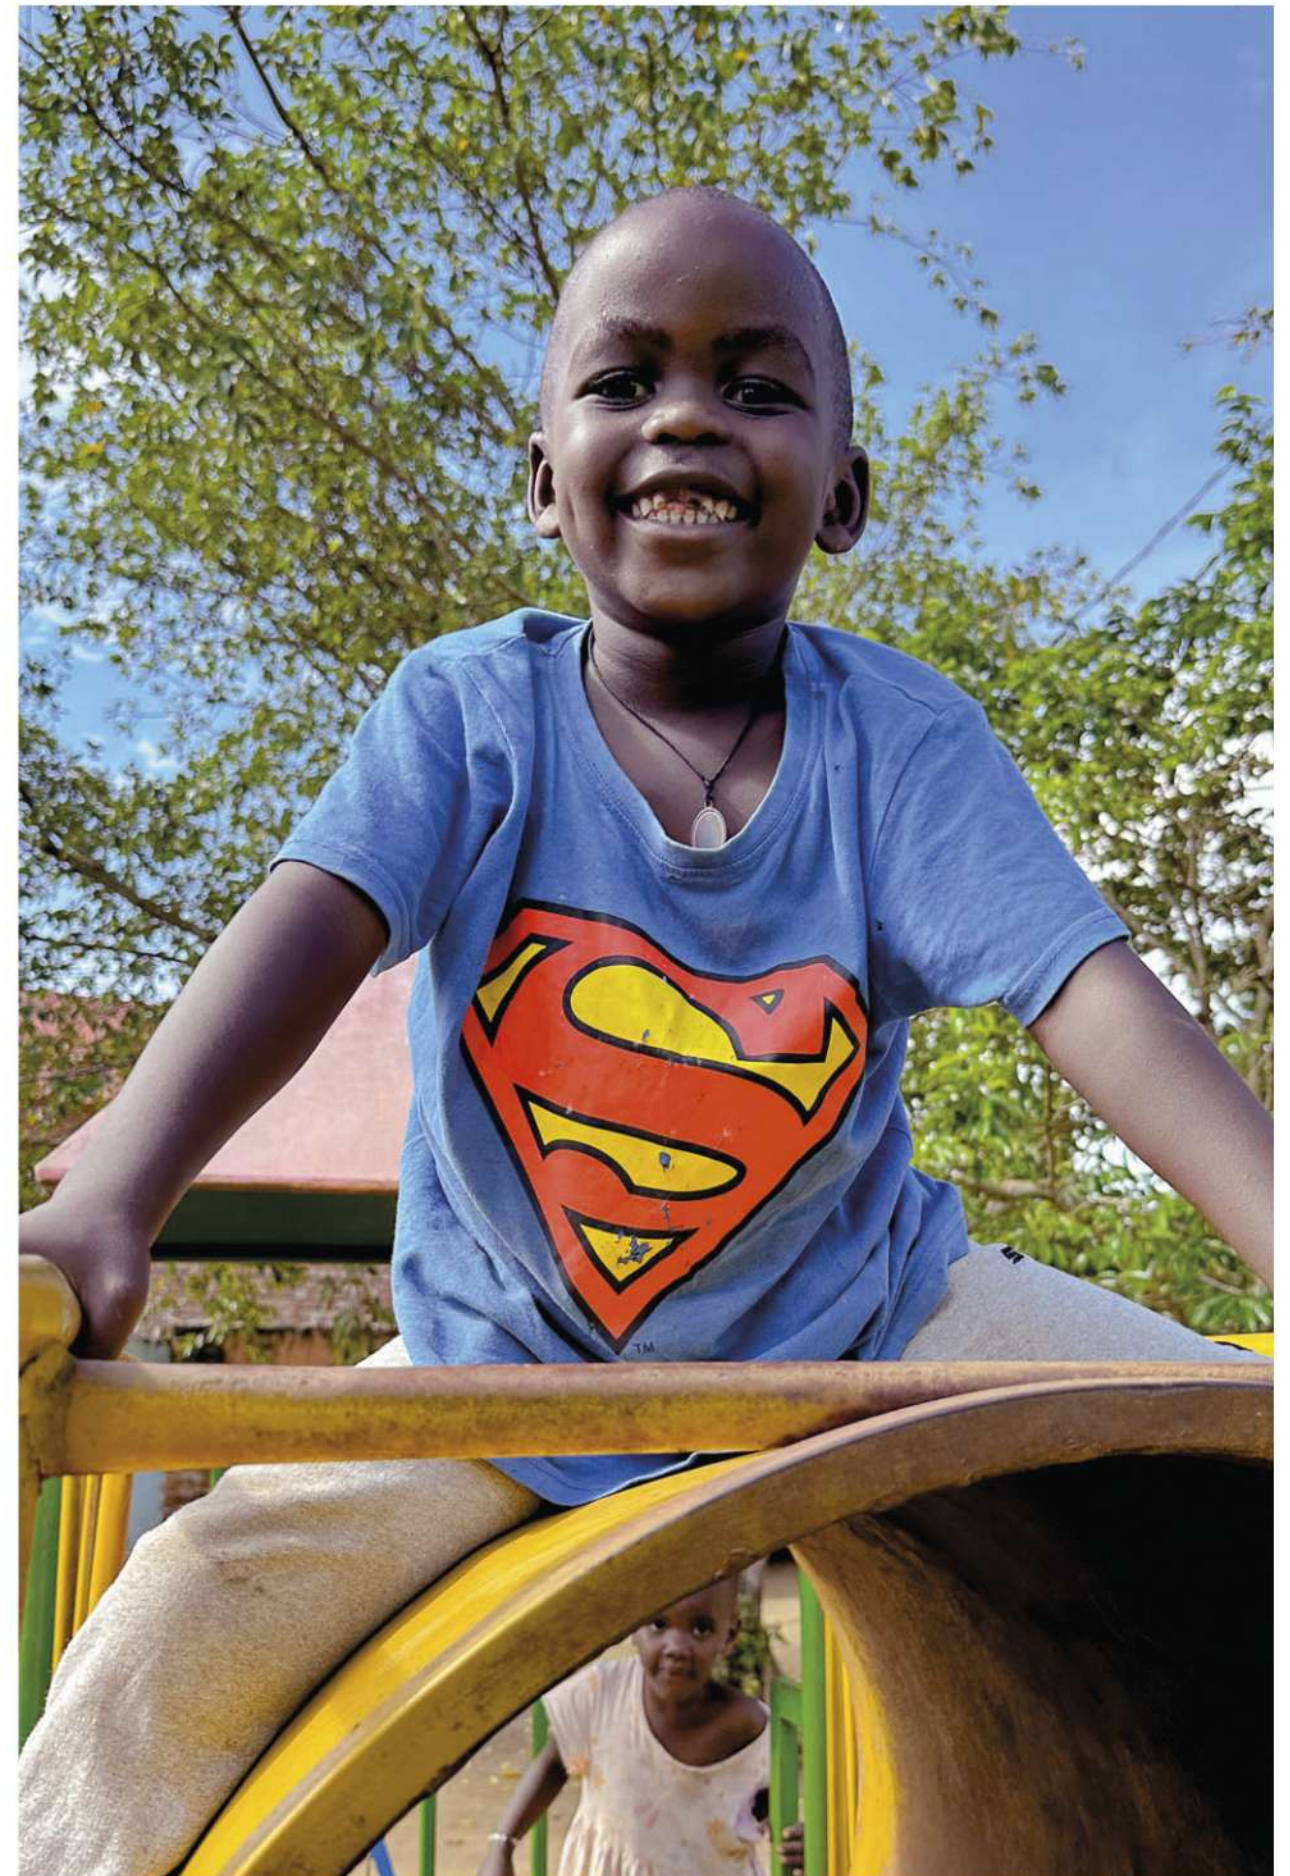

In 2024, a total of **€42.163,99** was raised and allocated to: the social support programme for children from single-mother families in Barcelona; food provision for orphaned children at Kikaya House in Uganda; the maternal and child nutrition project in Mozambique; the health and nutrition programme for foster homes in Cusco, Peru; and the mobile maternal and child health unit in Kolkata, India.

EVENTS

Christmas Lottery

Like every year we've offered the Christmas lottery and we have raised **1.960€** for our Foundation projects!
